

IMPORTANT INSTALLATION INSTRUCTIONS:
SMITH Post Guide-On Covers are snug fitting on 2-3/8" OD posts so they will stay in place in use. This snug fit will make them difficult to slide over a long dry post. To ease installation lubricate the post with liquid dish soap, (DO NOT use oil). Do Not remove the cover from the foam pad as it may be difficult to get the cover back on after the foam is installed. Remove any post cap before installation or slide cover on from the bottom of the post.

P/N 27900

Protects the boat finish from scuffs. Sized for a close fit on standard 2" schedule 40 PVC posts, (2-3/8" Actual OD). Made from strong polyurethane coated 600D nylon fabric with nylon closures on each end. Open bottom and top allow for LED post guide-on lamps. 1/2" thick closed cell polyurethane foam inner pad.
